D1 - Changes on Courses Add/View/Edit
1. Terms swipe items have Course Title, Course Status, and Dates. This gives more information to the user compared to the old version
2. Removed the Home button and "+" icon and placed the "Back" and "Add Course" buttons under Terms swipe items so it will be easier for a user to identify the functionality and reach it.
3. In Add/Edit a Course screens added a Course Status picker to reflect requirements from B.2.
4. Changed "Set notifications for start/end dates?" for Add/Edit courses selector to switch element to adhere more to mobile design
5. Changed Course View and divided course information into foldable sections, allowing users to detect needed information about the course faster.
6. Added "Share Notes" button to share Course Notes. Changed the "Back" button to "Return to Term Courses". Changed "Assessments" button to "Course Assessments"
Elements and misc
Terms Management Screen
Terms Management
